Malayalam

ABOUT ME

I'm a passionate software developer with a strong foundation in computer science. My problem-solving skills and commitment to clean, efficient code drive my work. I excel in collaborative environments and have experience in mention a relevant skill or technology. Eager to contribute my skills and adaptability to innovative projects. Excited to join a forward-thinking team.

WORK EXPERIENCE

Haris&co Academy

As an intern at Haris and Co Academy, I gained invaluable hands-on experience in the field of App development. Throughout my time, I actively engaged in various tasks, under the guidance of professionals. This opportunity allowed me to enhance my skills in Flutter, Dart, Node.js, Mysql, Firebase, Postman while also providing me with a deeper understanding of the industry's dynamics and practices. I collaborated closely with my colleagues, contributing to team projects and learning from their expertise. Overall, my internship at Haris and Co Academy was a transformative experience that equipped me with practical knowledge and prepared me for future endeavors in the field.

PROJECTS

SS Home Appliance

Electrical appliances, such as mixers, geysers, fans, and irons, play a crucial role in households. Over time, wear and tear can lead to breakdowns. While authorized service centers exist, there's still a significant need for repair and maintenance services, especially in semi-urban and rural areas.

Cyber Cafe Management

The project entitled "Cyber Café Management System" is a software package, which can be used in cyber cafés for managing the clients' computer efficiently.

Now a day's cyber terrorism, which is mainly undergone through internet cafes, need to be tackled properly. Thereby, it is indeed necessary to store the valid information of the user who comes for internet access. The system being used, the time at which the user logs in and logs out should be recorded systematically
